SUMMARY

I am an imaginative developer with a flair for crafting contemporary websites and web applications. With my boundless ambition, unwavering optimism, and disciplined work ethic, I transform my ideas into extraordinary projects and captivating designs. My passion for computer science and technology fuels my enthusiasm, and as a full stack developer, I possess a vast array of skills in languages and tools such as HTML, CSS, JavaScript, NextJs 13, React/Redux, Node/Express, MongoDB, and MySQL. Together, these qualities empower me to bring forth innovative and exceptional digital experiences.

INTERNSHIP

Solar Secure Solutions – June 2023

Web Development

During my full stack developer internship, I immersed myself in web development, mastering EJS, Node.js, Express.js, and MySQL. I honed my problem-solving skills and prioritized user experience. Real-world project challenged and strengthened my abilities. With the guidance of experienced professionals, I transitioned into a confident and skilled full stack developer, eager to contribute my expertise to innovative projects and make a positive impact in the industry.

EDUCATION

MCA: Master of Computer Applications (2021 – 2023)

[Technocrats Institute of Technology, Bhopal.](#)

BCA: Bachelor of Computer Applications (2018 – 2021)

[Shahid Bhagat Singh Govt. PG College, Pipariya.](#)

PROJECTS

E-Commerce Website -- NEXTJS

This website project built with Next.js, Node.js, Express.js, MongoDB, and Tailwind CSS! This project provides a complete solution for an online store, offering various products such as t-shirts, hoodies, mugs, and stickers. It incorporates essential features including user authentication, shopping cart functionality, order management, and payment integration using Razorpay.

Tech – NextJs, Tailwind CSS, NodeJs, ExpressJs.

Github – <https://github.com/AyushBathre2001/E-commerce-Project-NextJs>

Social Media Application – NEXTJS 13

A Next.js 13 based social media platform that allows users to connect, share posts, like, comment, and interact with others. This application provides a user-friendly interface and exciting features to enhance your social networking experience.

Tech – NextJs 13, Redux, Tailwind CSS.

Github – <https://github.com/AyushBathre2001/Sociosphere---Social-Media-Application>

Food Ordering Application

This MERN stack application is capable of taking food orders from customers. All dishes are fetched by the database and order confirmation will be sent to the customer through the mail.

Tech – ReactJs, ReduxJs, NodeJs, ExpressJs, Bootstrap.

Github - <https://github.com/AyushBathre2001/Fudo>

Real Time Chat Application using web sockets

A user can signup and log in to the application and can chat with other users. This application not only provides group chat but also provides one-to-one chat functionality. You can create a group, add and remove any user.

Tech – ReactJs, ReduxJs, NodeJs, ExpressJs, SocketIo.
